NEWSFLOW is published twice a year (March and October) by the EURO Working Group on Financial Modelling under a grant from the Erasmus University Rotterdam. Circulation: over 400 to 38 countries.
Editorial

The coming meeting will be the first in Monaco; we who live or work here are happy to welcome you.

In the finance industry life after the bubble has changed. The end of the bubble was not a catastrophe; it was the end of an illusion. It was the end of the belief that stock markets had magical powers. There has been a return to basics in the industry. Cost cutting, a narrowing of product ranges, and re-assessments of competencies in firms are the current preoccupations. At the same time, investors have switched from equities towards a new mix of products, especially hedge funds, bonds, guaranteed products, and passive products.

This new situation with an increasing emphasis on alternative investment products means that there are new and rich opportunities for original work in financial research.

At the International University of Monaco we will be making our own modest contribution. We will increasingly be focusing on education and research in finance. We will be starting a new Master of Science in Financial Management, and we are launching the IUM Monaco Hedge Fund Institute.

We hope this meeting will be the beginning of a new and fruitful relationship between members of the Working Group and IUM, and we look forward to seeing you again in Monaco, individually or as a group.

Lars Christian Smith
International University of Monaco
Call for papers EJOR

Thusfar, the European Journal of Operational Research has published a number of special issues on Financial Modelling:
Issue 74/2, edited by T. Martikainen, I. Virtanen and P. Yli-Olli;

A feature issue on financial modelling is an issue of EJOR partly or wholly devoted to financial modelling. The intended frequency of these feature issues on financial modelling is once or twice per year.

Papers on financial modelling are solicited that help to solve financial-economic decision problems in practice. Papers may relate to new insights, both theoretical and empirical, into the environment in which decision makers operate, new tools available to the decision makers and to the integration of these tools within frameworks for financial-economic decision making. Papers that stimulate and strengthen the interaction between financial economic theory and the practice of financial decision making, will be especially welcome.

The first feature issue was published as Issue Volume 114, Number 2, April 16, 1999, and edited by J. Spronk. This was followed by a stream of issues, some of which have been published and the others will follow soon.

Authors who want to submit to the upcoming feature issue are kindly invited to submit four copies of their paper to the Guest Editor Financial Modelling:

Nico van der Wijst
The Norwegian University of Science & Techn.
Dept. of Managerial Economics & Techn. Management
Alfred Getz vei 1
N-7034 Trondheim
NORWAY
Tel. + 47.73.597712
Fax + 47.73.593603
E-mail: Wijst@iot.ntnu.no

With respect to format and other requirements of submitted work, the authors are kindly referred to the Instructions to Authors, that can be found in every issue of EJOR. For the feature papers there is a separate board of editors, consisting of

Wolfgang Bühler, University of Mannheim, Germany
Erio A. Castagnoli, Università Luigi Bocconi, Italy
Michael A.H. Dempster, University of Cambridge, UK
Winfried G. Hallerbach, Erasmus University Rotterdam, The Netherlands
L. Peter Jennergren, Stockholm School of Economis, Sweden
Bjarne A. Jensen, Copenhagen Business School, Denmark
Jonathan S.H. Kornbluth, Hebrew University, Israel
John M. Mulvey, Princeton University, USA
Otto L. Loistl, Institut für Finanzierung und Finanzmärkte, Austria
Lorenzo Peccati, Università Luigi Bocconi, Milano, Italy
Matti Viren, University of Turku, Finland
Stavros A. Zenios, University of Cyprus, Cyprus
William T. Ziemba, University of British Columbia, Canada
Constantin Zopounidis, Technical University of Crete, Greece
Monaco  
6-8 November 2003

Program

The Program of this meeting and other information can be found through the main page of the internetsite of the University of Monaco:

www.monaco.edu

For more information:
http://www.few.eur.nl/few/research/ecfr/publications/
The EURO Working Group on Financial Modelling was founded in September 1986 in Lisbon. The primary field of interest for the Working Group can be described as “financial models that help to solve problems faced by financial decision makers in the firm, intermediaries and the investment community. From this the following objectives of the Working Group are distinguished:

- providing an international forum for exchange of information and experience on financial modelling;
- encouraging research in financial modelling (new techniques, methodologies, empirical studies, software, etc.);
- stimulating and strengthening the interaction between financial economic theory and the practice of financial decision making;
- cooperating and exchanging information with other universities and financial institutions throughout Europe.

It can be stated safely that the Working Group has become an established one. To give an idea: over 400 members, 33 international meetings and an own newsletter (NEWSFLOW) are three examples of the success until now.

Meetings
The meetings of the Working Group are organized twice a year, in April/May and in October/November. Earlier meetings were held in Belgium, Curaçao, Cyprus, Finland, France, Hungary, Italy, Lithuania, the Netherlands, United Kingdom, Germany, Greece, Croatia, Poland and Spain. There are now members in 34 countries spread over 4 continents. The meetings are attended by 80-100 members on average, most of them scientists but also representatives from the financial institutions, and are usually organized on Thursday, Friday and Saturday morning. The organizers are expected to schedule three types of sessions: a round table session with invited speaker(s), regular sessions with the presentation of refereed papers and balloon sessions in which unrefereed papers, new topics and ‘loose’ ideas can be discussed.

Newsletter
NEWSFLOW, the newsletter of the Working Group is published twice a year, about one month before each meeting. Newsflow is also published on the internetsite http://www.eur.nl/topics/finance/ewgfm/ewgfm.htm

It contains general information about the Working Group and the next meeting(s), letters from readers, announcements of financial seminars, calls for papers, a list of working papers, etc. For information about NEWSFLOW or for publication of your contributions please contact the editor: Hélène Molenaar, address below.
